Investment Map of Iraq

2016

Dear investor:

Investment opportunities found in Iraq today vary in terms of type, size, scope, sector, and purpose. the door is wide open for all investors who wish to hold investment projects in Iraq; projects that would meet the growing needs of the Iraqi population in different sectors.

Iraq is a country that brims with potential, it is characterized by its strategic location, at the center of world trade routes giving it a significant feature along with being a rich country where you can find great potentials and untapped natural resources which would certainly contribute in creating the decent living standards for people. Such features and characteristics creates favorable opportunities that will attract investors, suppliers, transporters, developers, producers, manufactures, and financiers, who will find a lot of means which are conducive to holding new projects, developing markets and boosting business relationships of mutual benefit.

In this map, we provide a detailed overview about Iraq, and an outline about each governorate including certain information on each sector. In addition, you will find a list of investment opportunities that was classified as per the available investment opportunities in each economic sector in each governorate. This updated map includes a number of investment opportunities that were presented by the concerned Ministries.

As we have published this document to serve your needs and requirements, we will certainly be pleased to receive any comments and suggestions you may raise, and we are gladly willing to cooperate with you to find constructive ways to attract investors who have the intention and willingness to participate in the process of economic renaissance in Iraq.

With all due respect..

Dr. Sami Al-A'raji
Chairman of the National Investment Commission

I hereby invite you to look at Iraq as one of the most important places where untapped investment opportunities are available in various fields and where each sector has a crucial need for investment. Think about the great potentials and the markets of the neighboring countries. Moreover, think about our real desire to receive and welcome you in Iraq , we are more than ready to cooperate with you In order to overcome any obstacle we may face.

Why Invest in Iraq?

Iraq is characterized by having many factors that would attract capitals and investments, due to the availability of natural resources like oil, gas, lands, and human resources, as well as the large size of the Iraqi market and the geographic position which creates opportunities for production, import, and export. All this represents diversified attracting factors that reflect the diversity of investing opportunities in different economic sectors.

In the light of the change that the economic philosophy of Iraq has witnessed, the goals and the reasons included in the Investment Law (no. 13 for the year 2006, amended) have contributed to attracting foreign investment, , due to the privileges and exemptions to these projects on the basis of the following:

- Acquiring lands and real-estates for Iraqi and foreign investors for the purpose of holding housing projects.
- Acquiring or leasing lands for Iraqi investors in order to establish land and industrial investment projects with a lease term up to 50 years that can be renewed (depending on the project's size and type).
- Entering and taking out the capital allotted to the project as well as its profits and revenues in accordance with the provisions of the aforementioned law and Iraqi Central Bank regulations.
- Circulating shares and bonds in Iraqi Stock Market and acquiring membership in joint-stock companies.
- Creating investment portfolios in shares and bonds.
- Insuring projects with any Iraqi or foreign insurance company.
- Opening accounts in Iraqi or foreign currency or both in any bank inside or outside Iraq.
- Employing and hiring foreign labor in projects alongside local labor.
- Providing foreign investors and workers the right of residency in Iraq and facilitating the process of entering and leaving the country for them.
- Open a branch of the foreign company in Iraq.
- Register patented for his investment project.
- Exempting the investment project from taxes for ten years starting from the commercial operation date, and extending this ten years period into fifteen years when the Iraqi investor's share exceeds 50%.
- Assets imported for the purposes of the investment project are exempted from taxes and custom duties, provided that they are brought into the country during the project's construction stages and before the commercial operation of each of the project's stages commences, according to the basic design of the project and its timeline.
- Housing projects are exempted from duties and realestate registration fees including fees on moving housing units to citizens property.

- Imported raw materials for the purpose of commercial operating are exempted from taxes and customs fees provided they are included in food cards items, medication, and construction materials.
- Imported raw materials for the purpose of commercial operating are exempted from taxes and customs fees according to local materials ratio in manufacturing products. Further regulations shall be issued in this regard.
- Granting hotels, tourism institutions, hospitals, health institutions, rehabilitation centers, and educational and scientific institutions additional exemptions from the duties paid on furniture and the material needed for modernization and renewal purposes at least once every four years.
- Covering strategic partnerships with public sector projects in rehabilitating, operating or establishing in cooperation with private sector by the advantages of the Investment Law.
- Provide investors with a badge after granting the investment license to enjoy privileges accordingly.

Basic aims of development plans have become achievable, and the investment environment has turned stable because of:

- Significant improvement in security levels
- Adopting an effective economic, monetary and financial, policy that led to create relative stability in inflation rates, which helped in turn to achieve high annual economic growth rates.
- The trend towards activating the private sector's role and expanding its participation in promoting investment and the economy, and opening doors for cooperation with the outside world.

A Glance at Iraq's Geography

Iraq has a strategic and effective position in the world as it represents a crossroad for the different routes connecting the world continents and a land bridge leading to naval communication routes. Iraq is important on both international and commercial levels. The capital of Iraq is Baghdad. The country consists of eighteen Provinces, three of them, Al-Sulaimanyah, Erbil, and Duhok, constitute

Kurdistan Region, whereas Basra, Mosul, and Erbil are considered the principal Provinces due to the large areas and large number of population they enjoy. Iraq's main resources are oil, natural gas, sulfur, phosphates, iron, red mercury, kaolin clays, bauxite, limestone, gravel and sand.

Geographically, Iraq can be divided into four main areas: the Western Area, the Southern Area, the Mountain Area, and the Sedimentary Plains Area on the Tigris and Euphrates. The area of the country is about (438,446) km². The population of Iraq is about (36.9) million, most of them live in urban areas.

Iraq has two main rivers which are Tigris and Euphrates, whose lengths are (1850 km) and (2350 km). Both of these rivers rise in Turkey and meet in Al-Qurna City in Basra Province to form Shatt Al-Arab which in turn flows for another (185 km) before reaching The Arabian Gulf.

Iraq borders Turkey to the north, Saudi Arabia, Kuwait and Gulf to the south, Iran to the east, Syria and Jordan to the west.

Land Borders

The total length of Iraqi borders is (3631) km distributed as follows: (1458) km with Iran, (181) km with Jordan, (242) km with Kuwait, (814) km with Saudi Arabia, (605) km with Syria, and (331) km with Turkey. On the other hand, the total length of maritime borders is (58) km*.

Lakes

There are many lakes in Iraq, the most prominent of them are:

Dowkan Lake, Al-Habaniya Lake, Al-Razaza Lake, Sawa Lake, Darbendekhan Lake, and Al-Najaf Lake.

Dams

Dowkan Dam, Darbendekhan Dam, Al-Therthar Dam, Al-Habaniya Dam, Al-Faluja Dam, Al-Hindiya Dam, Mosul Dam, Duhouk Dam, Himreen Dam, Al-Kut Dam, Samaraa Dam, Qazanya Dam, Al-Itheim Dam, and Hadeetha Dam

Rivers

The Tigris, The Euphrates, Diyala River, Al-Zab Al-Kabeer River, Al-Zab Al-Sagheer River, Shatt Al-Arab River, Al-Idhaim River

Surface Classification

Iraq's surface can be classified into four main areas: the Western Plateau, the Mountainous Area, the Sedimentary Plain Area, and the Undulating Area.

Mountains

Sinjar Mountain, Qaradagh Mountain, Himreen Mountain, Sanam Mountain, Al-Jabal Al-Abyadh, Kara Mountain, Qindeel Mountain, Helgord Mountain, Mateen Mountain, Korek Mountain

Marshes

Al-Hamar Marsh, Al-Huweiza Marsh, Al-Jibayish Marsh, Al-Qurna Marsh.

Islands

Alus Island, Jibba Island, Um Al-Khanazeer Island, Um Al-Russas Island, Hijam Island, Um Al-Babi Island, Al-Sindbad Island.

A Glance at Iraq's Economy

Iraq's economy has showed a good performance for the year 2012-2013-2014- 2015, since it varies in its natural, human, and spatial resources. In addition, it has a healthy economic structure. Given all that, it represents a very suitable environment for investments. The following economic, developmental, and social indications support such argument:

Oil Sector

- Oil plays a vital role in the development of Iraq's economy as it contributes to GDP about 40% in fixed prices for the year 2013, and 44% in fixed prices for 2014, and about 60% in GDP for 2015 in oil sector and more than 90% of financial revenues.
- Oil sector has achieved a significant rise in production as the conducted researches showed that crude oil production had a noticeable rise during the year 2013- 2014 as it increased from (2,8) million bpd to more than (3) million bpd in 2015.
- Iraq has large potentials and competitive experience in sulfur-related industries. It also produces significant amounts of nitrogen fertilizers and phosphate.

Table (1)

Basic statistics related to oil sector for the year 2014

Fixed Oil Reserves	144 Billion bpd
Fixed Gas Reserves	98 trillion cubic feet (TCF)
free Gas Reserves	31 trillion cubic feet (TCF)
Oil Production 2014	3 million bpd
Targeted Production 2020	8 million bpd
Oil exports 2014	2,5 million bpd

*source: Iraqi Ministry of Oil according to its letter no.899 on 26/3/2015

• Foreign Exchange Indications

The Central Bank and commercial banks have reported a noticeable increase in its foreign assets during 2008-2013, as it jumped from (68.084.967) million Dinars in 2008 to (97.492.510) million Dinars in 2012 to (112,787,829) million Dinars in 2013, whereas liabilities witnessed some fluctuation, amounting to (3,934,507) million Dinars in 2011, while estimated in 2013 with (3,679,416) million Dinars which reflects foreign assets sedate.

The following table shows foreign liabilities and assets for the period (2008-2013) in million Iraqi Dinars.

Table (2)

Foreign Liabilities and Assets for the period (2008-2013)

* Iraqi Million Dinar

Year	Total Foreign liabilities	Total Foreign Assets
2008	2.043.946	68.084.967
2009	5.767.829	67.910.770
2010	3.806.679	71.922.626
2011	3.934.507	82.980.261
2012	3.608.750	97.492.510
2013	3,679,416	112,787,829

*Source: Iraqi Central Bank – Annual Statistic Journal 2013

• Financial Policy and Financial Deficit

Public spending, in its two parts: current and investment, has expanded due to the wide range of building and construction projects undertaken by the government to compensate for years of wars and economic sanctions. This expansion was made possible by virtue of the vast increase in oil revenues, which contributed greatly to financing the state's Overall Balance and honoring Iraq's internal and foreign obligations. Many observers, including IMF, have indicated that the budget deficit has been lower than expected, and that the increase in oil revenues may gradually turn this deficit into a surplus, easing the burden on public finance.

Table (3)

2013	1232	1166
2014	1214	1188

*Iraqi Central Bank/ annual statistic group

- **Interest Rates**

Interest rates witnessed massive increase in the period (2005-2009), as it reached at some point 23%. Consequently, investment fields were minimized. In order to reverse this situation, the financial authority reduced this rate to 6% and later to 3.5% during 2014. Such a move will help expansion in the investment field, as it motivates investors to borrow money locally in order to expand their activities in the economic field, which promotes economic development and economic stability.

- **Inflation Rate**

Annual inflation rates passed 30% in 2007, but it decreased to 2.4% in 2010, only to rise again in 2011 and 2012 to 5% and 6% respectively. The rise concentrated in the prices of food, commodities, and rents, which raised consumer prices record. While in 2014 the inflation rate has reached (2.2%) compared to its value in 2013 as this increasement focused on prices of clothes, housing, health and education. In 2015 it reached 1.44% the increase was in electricity, gas, communication, housing and education.

Table (5)

* Ministry of Planning/ Central Statistical Organization

Chart 4 Proportion of Commodity Groups Goods to Inflation Rate for the year 2014-2015

- **Demographic Trends and Economic prosperity**

According to the latest estimation (done by the Central Organization for Statistics and Information Technology in the Ministry of Planning of 2015) Iraq population is about 36.9 million, with an annual average growth of 2.6%. Hence, Iraq is considered a large, promising, investment-supporting market, especially when we consider the fact that per capita income has increased significantly to reach 6000\$, creating higher demand for different types of commodities, goods, and services, and this in turn will lead to more growth and diversity in the structure and trends of investment activities in Iraq.

- Major sectors are: oil and gas, electricity, housing and infrastructure, transport, health, industry, agriculture, communication, services, education, and tourism.
- Major agricultural products are: wheat, barley, rice, vegetables, dates, and cotton.

Chart 5 Iterative curve (gross domestic product (GDP) fro several years

Banking sector

Over the past decades, banks owned by the state in Iraq conquered the whole banking sector activities in contrast to noticeable shrink of the private sector in this field. Non-banking financial institutions were remarked for their weak performance.

To cope with the aforementioned and under the political and economic changes in Iraq after 2003, the government attempted to carry out vast and vary reformations in the various economic/ financial and banking fields. The latter included the reformation of the banking sector, its tools and mechanisms and in accordance with various

views, so as to get rid of the various restrictions and obstacles. This has been through the revision of the codes and bylaws led by the aim of concentrating on competition and opening the local financial market to the international markets, as this openness insures the enhancement and development of the banking system to face the elements and factors of competition and risk, in addition to the technological development and big advancement achieved in the communication and information systems. This development has led to the reduction of the cost of the financial procedures over the borders, the enhancement of processing data and accountancy systems, and reflected, eventually as benefits, whether for the banks or their customers.

The structure of the banking system in Iraq varies between governmental and commercial private banks. Governmental banks in Iraq mounted to (7) specialized banks (Al-Rafidain bank, Rasheed bank, Cooperative agricultural bank, Industrial bank, Estate bank, Trade Bank of Iraq and Islamic Al Nahrain bank), while the commercial private banks amounted to (50) banks.

Iraqi Stock Exchange Market

This market is regarded as one of the institutions which support investment and contributes to the achievement of stable and sustainable economic development in Iraq. It contributes to the strengthening of the investment structure and encourages the process of making capitals through assisting companies to build up the required capitals for investment and what support the interests of investors, elevates competition level through a free safe market characterized with transparency. This market has succeeded in gaining the membership of Arab Stock Markets 2006; the European Asian Union of Stock Markets 2005, and it exerts its efforts to gain the membership of the International Union of Stock Markets.

Investment law, Chapter three, Article 11, Advantages and Warrants, stipulates that foreign investor has the right to circulate at the Iraqi Stock Market by shares and bonds listed in it and to form investment portfolios.

Province of Baghdad

Historical Background

Province of Baghdad is the capital of the Republic of Iraq. It is situated on the Tigris River. It is the biggest city in Iraq; the second biggest city in the Arab world after Cairo, and the second biggest city in Western Asia, after Tehran, the capital of the Islamic Republic of Iran. Baghdad is an important point as roads, air, and trains cross at it. It is regarded as the economic, administrative, commercial and educational center and GOI headquarter.

Baghdad has been the most important center of the various sciences in the world. It had been the meeting spot of scholars and learners for many centuries. Baghdad has several names, such as, Al-Mudawwarrah (the Circular), Al-Zawra (the Deviated), and Dar Ul-Salam (House of Peace). Tigris River passes through the city, dividing it into two halves: Karkh (Western part) and Rusafa (Eastern part).

Baghdad has a lot of historical and civilization sites, most important of which is Al-Mustansiriyah School, ancient Islamic mosques, ancient palaces, and the National Museum which embraces the most important civilization, Mesopotamia. .

- **Area:** Baghdad has the area of 4.555 km².

• Population

Inhabitants of Baghdad are approximately (7.877.888), seven million and eight hundred seventy seven thousand, eight hundred eighty eight persons according to 2014 statistics. Almost 83% of the inhabitants of the capital are concentrated in the City of Baghdad itself, while 17% of them reside in its countryside and outskirts as Baghdad is the biggest city in Iraq and the second in area in Asia. These data shows that the density within the municipal boundaries of the city is extremely high. This high density requires more and more housing complexes and other various economic activities.

• Main cities

Rusafa District, Karkh District, Kadhimiyah District, A'adhamiyah District, Al-Sadr District (1), Al-Sadr District (2), Madaien District, Abu Ghraib District, Mahmoudiyah District, Taji District, Tarmiyah District.

• Bridges in Baghdad:

Muthanna Bridge, Aa'ima Bridge, 14th of Ramadhan Bridge, Iron Bridge, Bab Al-Muadham Bridge, Shuhada Bridge, Ahrar Bridge, Sinak Bridge, Jumhuria Bridge, 14th of July Bridge, Jadria Bridge, Hasanain Bridge, Dora Bridge.

• Main activities

The most important activities at the Province of Baghdad are concentrated in the following fields:

Oil refining, light industries, financial services, food manufacturing, tobacco, furniture, printing, construction, chemical and plastic material production, and electric devices.

Economy at a Glance

The capital Baghdad is regarded the center of the main and commercial activities. The main important oil industries are concentrated in it. Among these industries is Eastern Baghdad oil field which includes the biggest fixed reservations, in addition to many innovated and traditional industries among which are leather, textile, cement, and tobacco industries.

Baghdad, as well, is a vital and crucial center of financial and banking exchanges through its financial and banking sector (state and private). The most important specialized universities, schools, specialized institutes, state and private hospitals are located at it, in addition to a wide net of roads, international and local transport lines.

• Infrastructures

- There is a wide net of main roads and highways which link the capital to its south, north, east, and west. Among the most important of these is the international highway which links Baghdad to the Hashemite Kingdom of Jordan, in addition to the international way which links Basra to Turkey through Zakho in the north and passes through Baghdad, the capital.
- There are a number of important railway lines which link north Iraq to its south. There is, for instance, (Baghdad- Mosul) and (Baghdad- Basra) railways.
- There is also one of the most important airports (Baghdad International Airport), which is located at the western part of Baghdad, 16 km away from the center of the city. In addition, there is a net of land roads which link Baghdad, the capital, to the international lines, such as, Jordan, Saudi Arabia, Kuwait, Iran, Turkey, and Syria.

• Education

Baghdad has four state Universities, Baghdad University (est. 1957), Mustansiriyah University (est. 1963), Technology University (est. 1974), and Nahrain University (est. 1980). There is also the Technical Institutes Foundation (est. 1969) which turned to be (Technical Teaching Commission) in 2001. There are many private Universities and Colleges all over the city, in addition, there are almost 2396 primary school and 300 kindergarten, more than 1336 secondary school, and a number of technical and training institutes.

• Health:

Baghdad has 47 state hospital and 37 private one in addition to several health centers.

- **Tourist sites**

Baghdad has many museums, most important of which are the National Iraqi Museum which exhibit the antique treasures of Mesopotamia Civilization, Baghdadi Museum for Folklore Arts. It has numerous mosques, religious shrines, churches, and cathedrals.

1. **Mustansiriyah School:** This had been the most important university in the Islamic world during the Abbasid era. It had gained a wide reputation in teaching Arabic language; Theology, Astronomy, Mathematics, Medicine, Pharmacology, as well as it had its own university hospital to train its students.

Historically speaking, Mustansiriyah School had been famous for its watch which had been functioning astronomically; in addition to pointing time, it depicted locations of sun and moon at any time.

2. **Abbasid Palace:** One of the important buildings in Baghdad traced back to the second Abbasid era. It is situated near Bab Al-Mua'dham, on the River bank. Historians assign its building to the Caliph Al-Nasir Li Deen Illah (575- 623 A. H./ 1179- 1225 A. D.).

3. **Murjanियah School:** Murjanियah School which is known today as Murjan Mosque is situated at Shorja quarter, Rasheed street. It was named so after Ameen Al-Deen Murjan who built it in 758 A. H./ 1357 A. D., i. e., almost a hundred year after the Abbasid era. In its early stages, it had been similar to the Mustansiriyah School, as it had classrooms and a dormitory department.

4. **Baghdad fence and its gates:** It is one of the most striking features of Baghdad. Its walls were built circularly; its four gates deviated with 90 degrees for defensive purposes. Administrative and religious buildings were at the city center so as people may reach them easily.

5. **Aqarquf:** This is an important historical city. It is one of the cities which were built according to Sumerian- Babylonian architectural concepts. It is situated on 30 km west northwards of the city center. Its building age traces back to the 15th century B. C. according to an order by the King Qurikalzo the first after whom it had been named.

Aqarquf was built on a prolonged scheme on natural limestone. The city took its water from a branch of the River Euphrates (Baiti Inleel), i. e., God Canal, according to the Babylonian naming. People dedicated for this God the city biggest temple. It is the creative God and God of air.

The most immanent thing one can see is the city Ziggurat, as it elevates to 57m above the plain surrounds it while the base was rectangular.

6. **Madaien:** This is one of the important historical cities the ruins of which erect on the eastern bank of the river Tigris, 30 km southwards the center of Baghdad. It was built during the 2nd century BC. Its most prominent features are its high arch, a part of a huge palace on the River Tigris. Its building time goes back to the middle of the 3rd century A. D. This Arch is the biggest and highest brick built Arch all over the world.

Its building design had been developed from genuine Iraqi style of architecture. Iwan (Hall) idea was developed from the ancient Iraqi buildings. Cities' entrances frontages and some Assyrian palaces provide clear order of the development of the idea of Iwan.

Province of Diyala

Historical Background

Ba'quba is the center of the Province of Diyala. All over the Province there are ancient buildings and historical sites which are considered as tourist sites. Most prominent of these sites are Prophet Danial Shrine, Tel Asmer, Tel Abu Uthaina, Tel Shihab, Zindan, the Abbasid Dam on the river Al-Uthaim, ancient Saray of Ba'quba, and the River of Wend). The Province is characterized for its historical hills which are traced back to the 5th century B. C.

Location

Province of Diyala is situated in the northern eastern part of Iraq, between the longitudes (34- 36) and the altitudes (44- 46). The center of the Province is the city of Ba'quba, 56 km north east of Baghdad. It is boarded by the Provinces of Baghdad, Saladin, westwards, Sulaimaniyah to the north, Wasit and the Islamic Republic of Iran to the east. The main paved roads which link Baghdad to Tehran, Baghdad- Kirkuk, Sulaymaniyah and Irbil pass through the Province.

Area

The area of the Province of Diyala is (17.685) km² which represents 4% of the total area of Iraq.

Population

Population of the province is (1.584.948) person.

Main cities:

- Ba'quba District
- Baladrouz District
- Khalis District
- Mouqdadiyah District
- Khanaqeen District
- Kifri District

Economy at a Glance

The economic activities at the Province are concentrated in agriculture because of being situated on two main sources of water, Diyala River (a main affluent of Tigris River) and Uthaim River in addition to Himreen and Uthaim lakes with maximum storage capacity 5.5 bm^3 and Qazaniya and Mendly dams with storage capacity of 1.25 mm^3 . A large number of the manpower is employed in agriculture. Orange is widely grown in its orchards. Date palm trees are concentrated around Mouqdadiyah and run north towards Kifri. Olive, wheat, barley, and dates planting are common. The Province is also famous for cattle breeding, poultry, honey heaves, and fisheries.

The best part of its land is characterized by being fertile and plain, beautified by the mountains of Himreen and Zagros, the two lakes of Himreen and Uthaim, the orchards of date palms, fruits, farms of vegetables, grains, and dozens of factories.

Education:

The Province has only one University, University of Diyala and two private collages, Al Yarmook and Mesopotamia collages. Gilli Ali Beg waterfall

This waterfall occurs between the cities of Khalifan and Soran. Its length is 12 km. It is situated between the mountains of Korek and Nouathneen, 60 km from Shaqlawa summer resort. Gilli Ali Beg waterfall descends from a high point in a high speed. It is 130 km from the city of Irbil and it is one of the beautiful summer resorts in Irbil and in Iraq in general. It is 800 m above sea level.

Bikhal waterfalls

They are regarded among the most beautiful tourist sites in Iraq. The area is characterized for its humming waterfalls and its beautiful landscapes. These waterfalls are 10 km. from Rawandouz city. Bikhal has been known as summer resort which has wonderful waterfalls and landscapes.

Shaqlawaw resort

The city is famous for its waterfalls and mountainous nature as it is situated on the mountain Sifeen.

Province of Duhok

Historical Background

An Iraqi city which falls in Kurdistan of Iraq. Its three sides are bordered by mountains. This grants the city a marvelous looking. A streamlet coming from the Big Duhok Dam penetrates the city turning it to be one of the most beautiful sites. The Province of Duhok is famous for its fascinating landscapes.

The origin of the city dates back to the Stone Age, then it became a part of the Assyrian Empire; then the Babylonians; the Akhminians before it failed in the hands of Alexander the Great and the Romans.

Location

Province of Duhok is situated in the region of Kurdistan, extremely to the north west of Iraq. This province enjoys a special importance from the historical and geographical stand of view. The ruins and sculptures which were discovered in its hills and caves depict this importance. Moreover it has a distinctive geographical situation as it occurs on the borders between two states, and an international strategic transport way passes through it to link Iraq to Turkey and the external World as well. In addition, oil line which passes from Kirkuk to Turkey penetrates its north western corner. The province of Duhok is characterized by its various land shape, including the high mountains which shape the political borders of Turkey, and wide plains which are rich in their agricultural resources. These shape the southern part of the province.

Population

Inhabitants of the Province is (1252343).

Main cities

Province of Duhok is consisted of several important districts including Duhok District, Zakho District, Sheikhan District, Summail District, Berdersh District, and Namidi District.

Infrastructures

Province of Duhok is an important commercial center. Ibrahim Al-Khaleel entrance on the border with Turkey is one of the important points through which 40% of the materials pass. The province has a strategic road links it to Turkey.

Education:

The province has more than five private Universities and Colleges most important of which are (College of Agriculture, University of Duhok, and University of Kurdistan), many technical and administrative institutes, 440 primary schools, 215 secondary school and many Teachers' Qualifying Institutes and vocational institutes and schools.

Health

Province of Duhok has 19 hospital inside the province and 157 medical center all over its outskirts and districts.

Tourist Sites

Serseng summer resort

This is 126 km from Mosul. It is 1.046 m. above sea level. The maximum temperature there during summer mounts to 34°.

Soulaf summer resort

This is (166) km from Mosul through a paved way, 5 km from Imadiyah. It is 1150m above sea level. It has many marvelous waterfalls as high as 25 m. The summer resort is characterized by its numerous caves most important of which is Safi cave shaded by nut trees.

Jarsteen cave

This is a four columned cave at the valley of Duhok. Some historical references and some historians who visited the area confirm that it is one of the most ancient caves in which man had lived.

Historians confirm that Jarsteen cave dates back to the middle ages with its most ancient documents dates back to 12.000 years B. C. There is also the hill of Bastik and of Kammoun which date back to the history of the Kurdish Metanic State, in addition to the hill of Malta, the cave of Hilahta at Shandoukha, southward the province center which dates back to the ages of the Kurdish medians.

Still, there are many other caves and antiques sculptured on stones and many other ancient sites.

Province of Sulaimaniyah

It is situated in the eastern north of Iraq, on the Iraqi- Iranian borders. It affiliates to the region of Kurdistan. It is 2.895 f. above sea level. Mountainous nature overwhelms the province. This flavour increases as one goes towards the east borders with Iran. It is 140 km eastward of Kirkuk. 60 km north west the city of Sulaimaniyah is the Dam of Dokan on the River of Minor Zab.

Population

Inhabitants of the Province are (2.095851).

Main cities

Tourist sites:

Sindibad Island

This island is a marvelous tourist site which is located at the middle of Shatt Al-Arab, opposite to Shatt Al-Arab Hotel in Maqal. It is linked to both river banks via Sindibad Bridge.

It has wonderful gardens decorated with beautiful fountains. There are facilities for visitor comfort, a tourist coffee shop, and tourist houses for residence, in addition to the floating hotel near the Island, and a vast coffee shop at the southern end of the Island.

Qurna City: It is 74 km northward of Basra; Qurna is the legendary place of Adam's tree and paradise of Eden, where Tigris and Euphrates meet to form together Shatt Al-Arab, where we can see a lot of farms and orchards especially date palm orchards.

Abu Al-Khaseeb: This city is located on Shatt Al- Arab, 26 km to the south of Basra. It is the city of the late great poet Badr Shakir Al-Sayyab, it is also the center of date palm forests which are unique for their beautiful landscapes.

Investment Zones in Iraq

The National Investment Commission has started a program to prepare mechanism and a system to establish secured zones for investment according to the text of (Article 9 of the ratified amended Investment Law no. 13/ 2006 through cooperation with the Organization of Economic Cooperation and Development (OECD).

The National Investment Commission has formed up a strategy for the investment zones in Iraq through cooperation with the Investment Program in the Middle East and North Africa of the (OECD). A draft of the general principles for the feasibility study related to the experimental investment zone at the province of Babylon has been prepared and a draft of investment protection assessment for the sake of investors in Iraq has also been prepared. The program attracted a number of advisors, lawyers, financial experts and investors to contribute with their opinions and expertise so as to specify the conditions and situations which ensure the great advantage of investment.

The following Zones are in the phase of concluding requirements in order to be prepared and announced as safe investment zones:

- Basra Investment Zone/ Khor Al-Zubair Zone.
- Babylon Investment Zone/ Hitteen Zone.
- Baghdad Investment Zone/ near the International Airport.
- Anbar Investment Zone.
- Middle Euphrates Investment Zone (between the Holy province of Najaf and the Sacred Province of Kerbala).
- Nineveh Investment Zone.
- Diyala Investment Zone/ New Camp of Iraq

1- Oil and Gas Sector

Iraq is blessed with vast reserves of oil and natural gas, and is one of the most promising, still largely undeveloped sources of hydrocarbon resources in the world. After decades of lack of investments due to wars and sanctions. The importance of oil is not only limited to its role in developing Iraq but exceeds that to the role which it can play on the level of the international oil market for the big reserves which can be reinforced in the future because of Iraq's being one of the most responding countries to the increase demand of energy and it is expected for Iraq to be the second largest international resource for the crude oil, this sector contributed to the GDP with the fixed price by %60 during 2015.. Iraq is actively seeking international investment and expertise to help in the development of its oil and gas sectors so negotiation rounds started and led Iraq for a new marsh in investment history. The Ministry of Oil announced new ambitious plan to increase oil production and exports during this decade depending on foreign investment as a main source to achieve this goal. The main way for investors interested in oil and gas sector is in oil bidding rounds announced by the ministry.

It's worth mentioning that the Oil Sector in Iraq has received a lot of attention from the federal government which resulted in developing its investment opportunities in addition to the announcement of the four bidding rounds , as mentioned above, these opportunities has enabled reputable international companies to enter this field. Iraq has signed contracts in 2010 and 2011 with international companies to develop its oil fields within the first and second biddings rounds and to increase the production level to reach (11) million bpd in the next six years and to (12) million bpd upon adding the quantities resulted from other fields by national efforts.

Most of these contracts focused on developing major oil fields in south of Iraq, in addition to that the third bidding round announcement was released to develop

three gas fields which are Ukaz in Ramdi Province, Mansouriyah in Diyala Province and Seebah in Basra Province.

On the other side, it is more likely that the oil and gas industry will continue to attract foreign business activities in the near future and that Iraq has a wide range of untapped oil and gas fields which requires a large number of investments to develop these fields.

Table (9): Oil & Gas Indicators

Fixed oil reserves	144 billion barrel
Unfixed oil reserves	215 billion barrels
Fixed gas reserves	98 Trillion Cubic Feet (TCF)
Estimated oil potential reserves	31 Trillion Cubic Feet (TCF)
Oil Production 2014	3113 thousand Barrels/per day (bpd)
Targeted production for 2020	8 million bpd
Oil exports for 2014	2518 thousand bpd

Source: Iraqi MoO according to article no: 899 in Mar.26th,2015

Oil :

There are 144 billion barrels of fixed reserves in Iraq discovered in 71 fields , 27 of which are developed and %75 of the fixed reserves concentrated in many major fields in the south east of the country near the Iraqi border with Kuwait and Iran. An additional %20 is located in the northern part of the country near Kirkuk.

Gas:

Iraq is similarly rich in natural gas, with 98 TCF in proven reserves, and an estimated 31 TCF in probable reserves.

Oil and gas export and distribution pipelines

Iraq has a wide pipeline infrastructure total of 4350 mile. There are three main pipelines that connect Iraq to Saudi Arabia, Turkey, Syria in addition to the forth one (the Strategic line) that starts from Basra in the south to Kirkuk in the north. This line exports three quarters of daily production from Basra oil port in the south and the rest from the north pipeline from Kirkuk to Jihan port in Turkey.

Production, Distribution and Export:

As Iraq is developing its infrastructure at the present time, and heading towards expanding its productive operations in oil field, and to attract investments in production, distribution and export fields for oil sector in order to improve the current situation of oil sector as well as it will help to attract investments in other fields such as export pipelines particularly in Basra Port, and the export pipelines from Kirkuk Province to Jihan Turkish Port.

There is a wide range of needs in the south of Iraq which includes the need to establish a new pipeline to link the resources extracted from oil wells to refineries and to establish storage facilities in addition to expanding the ports. A number of studies were conducted to develop infrastructure which would enable Iraq to gain its position as a source for natural gas and this requires constructing an expanded infrastructure for gas sector in order to enable Iraq to supply the gas pipelines heading to Turkey and therefore it will supply major European markets.

Investment Opportunities in the Oil and Gas Sector

Ministry of Oil announced an ambitious plan to increase oil production and exports in the following years. Participation and direct investments are principal means for achieving this goal through oil licenses rounds announced by the Ministry.

Investment opportunities in Refineries and Oil & Gas Projects:

No	Refinery Name	Refinery capacity	Contracting company	investment/funding	Location
1	Kirkuk Refinery	150 thousand	SHAW	BOO	Kirkuk
2	Al-Nasiriya Refinery+ oil field	300 thousand	Foster wheeler	two choices 1.funding and EPC 2.investment and funding and EPC	Nasiriya
3	New CDU4 units in Basra refinery	70	A pre feasible study will be presented by studies directory and SRC	Funding and EPC	Basra
	KHT unit	14			
	NHT unit	30			
	NAPTHAsplitter	30			
	CCR unit	18			
	Isomerization	6			
	DHT unit	14			
4	Joint project to supply sea water	Phase one 7.5 million b/d Phase two 12.5 million b/d	CH2M HILL/USA	investment or funding	HGFWVM
5	Crude oil export pipe from Basra to Aqaba/ Jordan (56)	1 milliom b/d	SNC-LAVALIN/Canada	Investment	Basra- Anbar

6	Sea pipeline “48 (4.5)	1.6 mb/d for eash line	Supply advisor with SOC	Funding	Basra
7	Al Faw tank (crude oil)	58000*8 m ³ or 58000*16 m ³	SOC supply	Funding	Basra
8	Tuba tank expansion (crude oil)	66000*8 m ³		Funding	Basra
9	Bin Umer tank (crude oil)	Phase one 66000*22 m ³ Phase two 66000*11 m ³		Funding	Basra
10	The second national line for dry gas transportation 48”	1350 MMSCF/D		Funding	Basra – Saladin
11	East pipeline: (Basra- Baghdad LPG products) – Basra –Missan “14 fuel) (Missan – Baghdad “12 KE+GO)			Funding	Basra – Baghdad
12	Tuba tank (petroleum products)	20000*4 m ³ fuel 20000*2 m ³ Gas oil 20000*2 m ³ Kerosene	Feasible study was conducted by an engineering consulting company/ Ministry of Oil	Funding	Basra
13	Petroleum products platform in Al Faw great port	Export 320000 m b/d Import 32000 m b/d	TECHNITAL/ Italian	Funding	Basra

Source / Ministry of Oil / letter no 5313 in 14/2/2016

Available investment opportunities in investment oil according to provinces	project Name	proposed industries	land allocated for the project	Location
1	Oil Refinery	complete petrochemical factory and refinery	Badra District/ according to project need	Wasit
2	Center refinery	complete petrochemical factory and refinery	4000 dunems / Jurf Al Nasir district	Babylon
3	Al Kifl refinery	complete petrochemical factory and refinery	Al Kifl	Babylon

2- Electricity Sector

Electricity sector in Iraq presents a number of attractive investment opportunities to local and foreign investors. The government has ambitious plans aiming at raising the sector's capacity through motivating investors in the fields of building, operating and supplying.

The Ministry of Electricity (MoE) has sought to activate the role of the private sector in several fields like finance, quick construction and the contribution in raising the additional generation capacity to cover the country's need. The demand has grown furiously mainly by the essential consumer of electricity, families, in the recent years. Since the national power grid does not meet the local needs of the Iraqi families, they are forced to pay large amounts of money to be provided with electricity from the private sector.

MOE realizes that the current lack of electricity is the main obstacle for investments in all sectors since it is essential for the diversification of economy in the country, this sector has shared %1.1 of the overall local production in the constant prices for the year 2015.

It is planned for the power grid capacity to be (20,000) MW in 2016

Investment Opportunities Available in the Electricity Sector

No.	Project's name	Capacity Mega Watt	Implementation time	Province
1	Replace the south steam station project (160*3)	480	Maximum 2018	Baghdad
2	Al-Khairat steam Station Project 300*4	1200	Maximum 2020	Baghdad
3	Al-Yusfiya steam Station Project 210*2	420	Maximum 2019	Baghdad
4	Al Rasheed Gas Station expansion 125*2= 250	250	Max 2019	Baghdad
5	Al Haideria Project simple circle 160 + adding complicated circle 160	320	Max 2019	Holy Najaf
6	Steam station (Al Shanafiya 330*3	990	max 2020	Dewaniya
7	Replace Beji steam station 200*6	1200	max 2019	Saladin

8	Al Imara steam station 350*2	700	max 2020	Maysan
9	Al Nasiriya steam station 300*2	600	max 2020	Thi Qar
10	Al Musaib steam station expansion 300*2	600	max 2019	Babylon
11	Al Hartha steam station expansion 610*2	1220	max 2018	Basra
12	Al Anbar steam station 350*4	1400	max 2020	Al Anbar
Total		9380		

3- Communication Sector

The communication sector (wired and wireless) has witnessed substantial growth in Foreign Direct Investment (FDI) attraction in the recent years especially in the mobile phones and internet technologies which can be highly attributed to the

existence of an independent organizing agency and the renewable opening up to the foreign companies.

One of the most important development points in the communication sector in Iraq was developing the local wired and wireless communication networks. Wireless networks have been capable of changing the land line phones market in Iraq as these are providing both of this old service alongside with the internet service without having to use cables through the populated neighborhoods of the city.

Government of Iraq contracted in 2006 with different companies from the private sector to provide the wired communication networks which provide the services of voice and data transmission. Communication and Media Commission also granted in the same year three national licenses and three regional ones for providing local wireless communication services, national licenses may last for 10 years that can be extended for 5 more years while regional licenses can last for only 8 years.

The national development plan for the years 2010-2014 refers that there are more than 15 million mobile phone users in 2008 which indicates the acceptable costs that can be afforded by many Iraqi families, with the government planning for a %100 coverage in 2014. In addition to that, the market remained open to the foreign companies to increase the national competition and prices comparison, as there are more than 3 main operating companies in the mobile fields in the country.

The communication sector is considered as one of the successful sectors in the period following the year 2003. With better security situation, better laws and fully free market, the climate will be more suitable to attract more local and foreign investments.

Investment opportunities in the communication sector*

1. Marketing a whole group of communication and internet services through Access Network (video calls, voice and data, high quality TV channels and games).
2. Investment in fiber optic cable along the country for communication and internet services.
3. Land and data inventory is being conducted in the companies relevant to Mo C to be presented to investment.
4. Marketing communication and internet services through sea and land outlet (international and local).
5. Secure, enhance and develop security systems in communication and electronic protection.
6. Cooperate with private sector in financial transaction by using Automatic Transition machines (ATM) and modern printing machines to serve in media and printing business.

* **Ministry of Communication letter no. 9/674 in 1/2/2016**

4-Health and Environment Sector

During the 1970s and 80s of the last century, the Republic of Iraq was considered as one of the leading nations in healthcare in the Middle East and North Africa. Sanctions imposed on Iraq in the 1990s led to deterioration in the healthcare system.

Today the Iraqi government works on changing the healthcare system to make a better one through investment in teaching, training and infrastructure. The government is committed to return the healthcare system to a better quality than before by increasing the health care budget, which indicates a fundamental change in the government priorities in this vital sector. There are 360 hospital and 1609 healthcare clinic located in the provinces and tens of thousands private medical clinics.

Health indicators is of great importance to growth, standard of living and human capacity building. It is well known that the health status of the people in any country is considered as a main factor in the economical growth of the country. In Iraq, the Ministry of Health is in charge of determining the health level within a large system of hospitals and different medical clinics in addition to the private health sector represented by private hospitals and private medical clinics.

Health Indicators reflecting the sector's status and development:

- Number of hospitals in Iraq (public and private) till 2013 is 360 hospital and 1609 healthcare center (except KRG).
- Number of doctors in hospitals and medical centers (in private and public sectors) in 2011 is (20480) doctor of both genders while it was (19738) doctor in 2010 (except KRG).

Investment Opportunities in Health Sector

No	Project's Name	Type of Investment Opportunities	Province
1.	General hospital, capacity: (400) beds- 15 buildings (12 main healthcare centers / (1) typical healthcare center, specialized dental center) 1 building.	New construction	Baghdad/ Al-Rusafa/ Bismayah New City
2.	Specialized cancer treatment center	New construction	Baghdad, Al Karkh and Al-Rusafa
3.	Arabic Child Hospital in Al-Karkh (50 beds)	New construction	Baghdad/ Al-Karkh
4.	3-4 Drugs and medical appliances factory.	New construction	Baghdad, Al Karkh and Al-Rusafa
5.	2 Sterility and fertility hospital, Capacity:	New construction	Baghdad in Al Karkh and Al-Rusafa
6.	2 Specialized ophthalmology hospital Capacity :	New construction	Baghdad , Al Karkh and Al-Rusafa
7.	1 Specialized cardiac surgery hospital capacity :	New construction	Baghdad, Al Karkh and Al-Rusafa
8.	Specialized Plastic surgery hospital	New construction	Baghdad, Al-Rusafa/ Bismayah City
9.	2-3 hydrogen peroxide (pure O ₂)Plant	New Construction	Baghdad, Al Karkh and Al-Rusafa
10.	2 Complete medical city	New construction	Baghdad , Al Karkh
11.	4 General hospitals , capacity: 50 bed each	New construction	Baghdad, Al-Karkh and Al-Rusafa
12.	4 Specialized medical centers, capacity : (20 bed or more)	New construction	Baghdad , Al-Karkh and Al-Rusafa

13.	Joint venture with international companies to run hospitals and other medical fields	Contracting with specialized companies to open new hospitals in Iraq	Baghdad , Al-Karkh and Al-Rusafa
14.	Extra governmental hospitals to be submitted as an investment opportunity	Contracting with specialized companies to open new hospitals in Iraq	Baghdad , Al-Karkh and Al-Rusafa
15.	1 General Hospital Capacity : (+50 bed)	New construction	Babylon
16.	1 Specialized Heart and blood vessels surgery	New construction	Babylon
17.	1 Specialized gynecology Center	New construction	Babylon
18.	1 Specialized Infertility and IVF (tube baby) center	New construction	Babylon
19.	1 Specialized ophthalmology center	New construction	Babylon
20.	1 Specialized Cancer Treatment	New construction	Babylon
21.	1 Specialized in Laparoscopic surgery and laser center	New construction	Babylon
22.	1 Specialized Plastic Surgery Center	New construction	Babylon
23.	1 Complete Medical City	New construction	Babylon
24.	1 hydrogen peroxide (pure O ₂)Plant	New construction	Babylon

25.	1 General hospital capacity : (+ 50 beds)	New construction	Diyala
26.	1 Specialized Heart and Blood Vessels Surgery	New construction	Diyala
27.	1 Specialized gynecology Center	New construction	Diyala
28.	1 Specialized Infertility and IVP (Tube Baby) Center	New construction	Diyala
29.	1Specialized ophthalmology Surgery hospital	New construction	Diyala
30.	1 Specialized Cancer Treatment Center	New construction	Diyala
31.	1 Specialized in Laparoscopic surgery and laser center	New construction	Diyala
32.	1 Specialized Plastic Surgery Center	New construction	Diyala
33.	1 Complete Medical City	New construction	Diyala
34.	1 hydrogen peroxide (pure O ₂)Plant	New construction	Diyala
35.	1 General hospital capacity : (+ 50 beds)	New construction	Wasit
36.	1 Specialized Heart and Blood Vessels Surgery	New construction	Wasit
37.	1 Specialized gynecology Center	New construction	Wasit
38.	1 Specialized Infertility and IVP (Tube Baby) Center	New construction	Wasit
39.	1Specialized ophthalmology Surgery hospital	New construction	Wasit

40.	1 Specialized Cancer Treatment Center	New construction	Wasit
41.	1 Specialized in Laparoscopic surgery and laser center	New construction	Wasit
42.	1 Specialized Plastic Surgery Center	New construction	Wasit
43.	1 Complete Medical City	New construction	Wasit
44.	1 hydrogen peroxide (pure O ₂) Plant	New construction	Wasit
45.	1 General hospital capacity : (+ 50 beds)	New construction	Kirkuk
46.	1 Specialized Heart and Blood Vessels Surgery	New construction	Kirkuk
47.	1 Specialized gynecology Center	New construction	Kirkuk
48.	1 Specialized Infertility and IVP (Tube Baby) Center	New construction	Kirkuk
49.	1 Specialized ophthalmology Surgery hospital	New construction	Kirkuk
50.	1 Specialized Cancer Treatment Center	New construction	Kirkuk
51.	1 Specialized in Laparoscopic surgery and laser center	New construction	Kirkuk
52.	1 Specialized Plastic Surgery Center	New construction	Kirkuk
53.	1 Complete Medical City	New construction	Kirkuk
54.	1 hydrogen peroxide (pure O ₂) Plant	New construction	Kirkuk

55.	1 General hospital capacity : (+ 50 beds)	New construction	Holy Karbala
56.	1 Specialized Heart and Blood Vessels Surgery	New construction	Holy Karbala
57.	1 Specialized gynecology Center	New construction	Holy Karbala
58.	1 Specialized Infertility and IVP (Tube Baby) Center	New construction	Holy Karbala
59.	1 Specialized ophthalmology Surgery hospital	New construction	Holy Karbala
60.	1 Specialized Cancer Treatment Center	New construction	Holy Karbala
61.	1 Specialized in Laparoscopic surgery and laser center	New construction	Holy Karbala
62.	1 Specialized Plastic Surgery Center	New construction	Holy Karbala
63.	1 Complete Medical City	New construction	Holy Karbala
64.	1 hydrogen peroxide (pureO ₂) Plant	New construction	Holy Karbala
65.	1 General hospital capacity : (+ 50 beds)	New construction	Holy Najaf
66.	1 Specialized Heart and Blood Vessels Surgery	New construction	Holy Najaf
67.	1 Specialized gynecology Center	New construction	Holy Najaf
68.	1 Specialized Infertility and IVP (Tube Baby) Center	New construction	Holy Najaf
69.	1 Specialized ophthalmology Surgery hospital	New construction	Holy Najaf

70.	1 Specialized Cancer Treatment Center	New construction	Holy Najaf
71.	1 Specialized Plastic Surgery Center	New construction	Holy Najaf
72.	1 Complete Medical City	New construction	Holy Najaf
73.	1 hydrogen peroxide (pureO ₂)Plant	New construction	Holy Najaf
74.	2General hospital capacity : (+ 50 beds)	New construction	Basra
75.	1 Specialized Heart and Blood Vessels Surgery	New construction	Basra
76.	1 Specialized gynecology Center	New construction	Basra
77.	1 Specialized Infertility and IVP (Tube Baby) Center	New construction	Basra
78.	1 Specialized ophthalmology Surgery hospital	New construction	Basra
79.	2 Specialized Cancer Treatment Center	New construction	Basra
80.	1 Specialized in Laparoscopic surgery and laser center	New construction	Basra
81.	1 Specialized Plastic Surgery Center	New construction	Basra
82.	1 Complete Medical City	New construction	Basra
83.	2 hydrogen peroxide(pure O ₂) Plant	New construction	Basra
84.	1 General hospital capacity : (+ 100 beds)	New construction	Maisan

85.	1 Specialized Heart and Blood Vessels Surgery	New construction	Maisan
86.	1 Specialized gynecology Center	New construction	Maisan
87.	1 Specialized Infertility and IVP (Tube Baby) Center	New construction	Maisan
88.	1 Specialized ophthalmology Surgery hospital	New construction	Maisan
89.	1 Specialized Cancer Treatment Center	New construction	Maisan
90.	1 Specialized in Laparoscopic surgery and laser center	New construction	Maisan
91.	1 Specialized Plastic Surgery Center	New construction	Maisan
92.	1 Complete Medical City	New construction	Maisan
93.	1 hydrogen peroxide (pure O ₂) Plant	New construction	Maisan
94.	1 General hospital capacity : (+ 50 beds)	New construction	Al-Diwaniah
95.	1 Specialized Heart and Blood Vessels Surgery	New construction	Al-Diwaniah
96.	1 Specialized gynecology Center	New construction	Al-Diwaniah
97.	1 Specialized Infertility and IVP (Tube Baby) Center	New construction	Al-Diwaniah
98.	1 Specialized ophthalmology Surgery hospital	New construction	Al-Diwaniah
99.	1 Specialized Cancer Treatment Center	New construction	Al-Diwaniah

100.	1 Specialized in Laparoscopic surgery and laser center	New construction	Al-Diwaniah
101.	1 Specialized Plastic Surgery Center	New construction	Al-Diwaniah
102.	1 Complete Medical City	New construction	Al-Diwaniah
103.	1 hydrogen peroxide (pure O ₂) Plant	New construction	Al-Diwaniah
104.	1 General hospital capacity : (+ 50 beds)	New construction	Thi Qar
105.	1 Specialized Heart and Blood Vessels Surgery	New construction	Thi Qar
106.	1 Specialized gynecology Center	New construction	Thi Qar
107.	1 Specialized Infertility and IVP (Tube Baby) Center	New construction	Thi Qar
108.	1 Specialized ophthalmology Surgery hospital	New construction	Thi Qar
109.	1 Specialized Cancer Treatment Center	New construction	Thi Qar
110.	1 Specialized in Laparoscopic surgery and laser center	New construction	Thi Qar
111.	1 Specialized Plastic Surgery Center	New construction	Thi Qar
112.	1 Complete Medical City	New construction	Thi Qar
113.	1 hydrogen peroxide (pure O ₂) Plant	New construction	Thi Qar
114.	1 General hospital capacity : (+ 50 beds)	New construction	Al Muthana

115.	1 Specialized Heart and Blood Vessels Surgery	New construction	Al Muthana
116.	1 Specialized gynecology Center	New construction	Al Muthana
117.	1 Specialized Infertility and IVP (Tube Baby) Center	New construction	Al Muthana
118.	1 Specialized ophthalmology Surgery hospital	New construction	Al Muthana
119.	1 Specialized Cancer Treatment Center	New construction	Al Muthana
120.	1 Specialized in Laparoscopic surgery and laser center	New construction	Al Muthana
121.	1 Specialized Plastic Surgery Center	New construction	Al Muthana
122.	1 Complete Medical City	New construction	Al Muthana
123.	1 hydrogen peroxide (pure O ₂) Plant	New construction	Al Muthana

According to MoH letter no. 171 in 14/1/2016

Investment opportunity in Environment Sector

no	Department	Project name	Location
1	Water & soil monitoring	Dust and desert control and monitoring center using remote sensors control	1. mid Euphrates (Karbala, Najaf, Babylon, Qadisiya, Muthana) 2. Southern area (Wasit, Maysan, Thi Qar, Basra)
2	Observe and asses industrial activities and services.	Monitoring gas and fine psrticles emissions due to polluted industrial and services activities.	Oil refineries, power stations, cement factories and hospitals in Baghdad and provinces.
3	Monitoring chemical materials and asses polluted sites.	Treating oil waste activities	- All oil fields in provinces, - Oil refineries - Leaks resulting from broken pipes- polluted soil
		Test imported chemicals, paints, toys in borders outlets.	borders outlets in Basra, Mayan, Wasit, Diyala,
		Hazardous waste control in borders outlets	Borders outlets (land, air, ans sea)
		Treating chemically polluted sites.	All provinces, priority to the most contaminated sites.
		Electric and electronic waste recycling	Locations following environmental instructions regarding recycling wastes.
4	Climate changes and air type control	Supply and install fixed station for noise metering in all provinces except KRG	all provinces except KRG
		Supply and install fixed station for noise metering non- ionized ray in Baghdad and provinces.	Baghdad and provinces
5	Information technology	Develop the website by presenting electronic services	Baghdad/ Ministy HQ.

According to Ministry of Enviroment letter no. 47 in 16/2/2016

5- Housing and Infrastructure sector:

Economically speaking, housing is a very vital sector for the important roles it plays in the formation of the fixed capital, generating incomes and creating job opportunities and through the connection with other

activities. Many countries which enjoy financial surpluses go to maximizing the role of this sector, in other words considering it as a producing sector.

The Government of Iraq granted the private sector and the foreign investor the enabled role that may achieve touchable results in the housing production field by providing the lands suitable for housing purposes which will contribute to treating the problem of the residential slums and expanding in manufacturing the construction materials, taking into consideration the average growth of the Iraqi population and the fact of the need of 2 million housing units by 2015.

The contribution of this sector to the GDP in the fixed prices was approximately 85% for the year 2015, while contribution of this sector to the GDP in the fixed prices the years 2015 was 3%.

This sector greatly contributes to the increasing demand on the materials used in production in addition to addressing unemployment in Iraq. The National Investment Commission announced the

national housing project to build 1 million housing units in all provinces of Iraq and have already started the implementation of the first stage of this huge project through constructing 100 thousand units in Baghdad (Bismaiya New Housing City Project) implemented by Hanawah South Korean Company for Engineering &

Construction, to build. These 100 thousand units is part of Baghdad's total housing quota of 224 thousand units.

The following table shows the housing units needed by each province according to the database available at the Ministry of Planning:

Number of Housing Units that are to be implemented in each Province

Province/ Region	Number of units
Anbar	45 thousand units
Babylon	54 thousand units
Baghdad	224 thousand units
Basra	80 thousand units
Diwania	35 thousand units
Diyala	43 thousand units
Holy Kerbala	31 thousand units
Kirkuk	40 thousand units
KRG	140 thousand units
Maysan	31 thousand units
Muthana	22 thousand units
Holy Najaf	37 thousand units
Nineveh	101 thousand units
Saladin	39 thousand units
Thi qar	58 thousand units
Wassit	36 thousand units

NIC is supervising the implementation of the project in all Iraqi provinces through facilitating the process of allocating lands for investors, while a group of Iraqi banks (Rafidain Bank, Rasheed Bank, and TBI) are regulating the financial processes regarding this project.

The National Investment Commission has announced many housing projects as investment opportunities, among which are the following:

- **Al-Rasheed Housing City Project (Al-Rasheed Military Camp formerly) at the Province of Baghdad:** this project includes the construction of a modern city of approximately seventy thousand housing unit with integrated services, the project's infrastructure shall include sport, medical, commercial, and entertainment centers. (the project is not assigned yet to any company)
- **Dhifaf Karbala Housing City Project at the Province of Holy Karbala:** This project includes the construction of a modern city of approximately forty thousand housing unit with integrated services, the project's infrastructure shall include commercial, and entertainment centers. The project was assigned to Bloom Emirate Real Estate Company and Al-Handhal International Group.
- **Al-Mustaqbal Housing City Project at the Province of Baghdad:**
This project includes the construction of a modern city of an approximately thirty thousand housing unit, the city shall be supplied with the necessary services facilities. The project was assigned to Bloom Emirate Real Estate Company and Al-Handhal International Group).
- **Janatt Baghdad Housing City Project (Al-Dabbash Area formerly) at the Province of Baghdad:** This project includes the establishment of a vertical housing complex of twenty housing unit, the project's infrastructure shall include commercial, and entertainment centers. The project was assigned to Al-Hurra International Company.

7. Transportation Sector

It is one of the important economic sectors for its direct impact on the daily life of people and its tangled connection with the other economic sectors which can't be improved and developed without good infrastructure and efficient services of the transport system and all types of land usage requires a road net that meets its needs.

This sector is characterized by a big contribution of the local and foreign private sector and investments in implementing and operating lots of its projects.

The contribution of this sector to the GDP in the fixed prices was approximately %6.1 for the year 2015,

Iraq has planned to exploit its special geographic location in developing the transport sector in all its branches (land, maritime and air), the matter that will help in achieving the economic growth and creating lots of job opportunities in the international commercial businesses especially when developing the sector's infrastructure which will result in diversifying revenues and providing better services to people and all users.

Available Investment Opportunities in Transportation

First: Railways State Company

no	Project name	Details	length	Number of lines	Signals & communication	Axial load/ton	Speed (km/h)		Total (million)		Estimate cost (million USD)			Project implementation period

Third: State Company for Iraqi Civil Aviation

1	A. Mid Euphrates Airport Project	South to Karbala Province	Plot 3 dis. 64 Al Jezeera	45 km ²	2.180 b USD	5 years (first phase)	Plot belongs to MoF, in process to be transferred to Civil Aviation. Contracted farmers of Karbala province were evacuated, same procedure is in process with Najaf farmers
	B. hotel with complete services (residents, offices, etc.	Basra International Airport, the east southern side	Plot 13/7715 dis. 42 Toba& Nekhela	100 dunem	-	-	Plot is a private property allocated to the ministry according to Ministers Council declaration no. 399 in 2015
2	Al Mansoriya Airport Project		131/51 dis. 36 Diyala/ Al Mansoriya	5000 dunem	240 m USD	-	According to MoT letter no. 2123 in 7/3/2013

7- Industry and Minerals sector

The Industrial sector is seen as one of the most prominent component of the non- oil economy, and the Ministry of Industry and Minerals (MIM) is considered as the main pillar for the industrial policy in Iraq which encourages investment according to investment law for the year 2006 as amended and it runs the state owned enterprises (SOEs) and seeks to develop these SOEs in cooperation with other sides willing to invest to raise efficiency of performance. MIM also specified a number of projects through which it aims at attracting foreign investments especially that this Ministry already has a number of investment bases and regulations.

Law No.22 for the year 1997 (regarding state owned companies) focuses on rehabilitating the operating plants which employ capitals and special expertise and it allows the SOEs to conclude agreements with foreign investors who will also be covered by the incentives and privileges provided by the investment law No.

13 for the year 2006 that encourages investment and it also provide protection to foreign investments in this sector among other economic sectors. The contribution of this sector to GDP in fixed price has reached (1%) for the year 2015.

MIM launched an ambitious program in 2005 for granting licenses to establish joint ventures and production sharing agreements for the purpose of promoting investment in this sector where investor should undertake all the rehabilitation processes, management and operating the plant at his own within the framework of the investment concept announced by the Ministry against a share of the production within a pre specified duration of 15-20 years, and the investor is free to suggest rehabilitation through rehabilitating the available machines and equipments or substitute all by new machinery, in all cases, the Ministry will be an active partner

and shall be ready to provide the investor with all available database in addition to helping in issuing the entry visas for the technical teams to the plant sites.

The developments in this sector included evaluating the suggestions to reduce the imports volumes to reinforce domestic products and ensure a package of comprehensive reforms which guarantee protection of investors' benefits and help to maintain a framework for the sustainable investment in SOEs, it is expected that the reforms package will not only lead to rehabilitate this sector but will result in producing new proactive energies and enforcing the available laws.

Iraq currently has diversified light and heavy industries like carpets, automobile assembling, pharmaceuticals, petrochemicals, fertilizers and other more industries. It is hoped that SOEs can play an important role in supplying both the state and private industries with the required products and services in light of applying a series of technical and management reforms and the investment directions to improve the quality of performance and production.

MIM has more than 72 SOEs that deal with various sectors which can be shown in the table below:

Sector	No. of companies
Engineering sector	28
Food & Chemical Industries	18
Construction	6
Textile	7
Services Sector	4
Others	9
Total	72

*according to Ministry of Industry & Mineral's letter/Investment Department, numbered 4571 on 21/2/2015

Most of SOEs works in low capacities for the following reasons:

- 1- Old machinery, equipments and production lines as most of them were provided during the seventies and eighties of the last century.
- 2- Old technology that does not match the international progress in the industrial sector
- 3- The unreliable national power grid that can't meet the electrical needs of industrial plants.
- 4- Domestic market opening up to imported products, the matter that impacted the competitiveness of the national products.

Consequently, MIM has adopted a plan to rehabilitate and develop most of SOEs through partnering with Arab and foreign private sector.

The Role of Government in the Industrial Sector

MIM is aiming at rehabilitating its companies or turning them into state or private joint stock companies and has announced a number of investment profiles for several companies, some of which have already been won by investors in order to be rehabilitated and operated, while issuance of investment law No. 13 for the year 2006 as amended has contributed much to reinforcing this trend.

Legal frameworks that govern the process of rehabilitating SOEs in addition to investment law can be shown below:

State companies' law No. 22 for the year 1997 as amended:

This law regulates the work of the state owned companies, the provision (15/3) of the same law allows the state company to conclude partnership with foreign company to implement a business that lays within the state company activities in Iraq depending on the legal basis for the partnership contracts included in the state companies law which gave the right to these companies to partner with Arab and foreign companies and enterprises to implement works relevant to the state companies objectives inside Iraq.

Public sector projects that are to be rehabilitated or operated with private and mixed sector, are covered with all privileges and guarantees prescribed in the investment law no.13 of 2006 (the first amendment of investment law no.13 of 2006 (Article 6/B), that was added to the text of (Article 32).The law applies to the projects agreed on and contracted before the enforcement of this law.

Companies law No. 21 for the year 1997 as amended:

Provision No. (8) of this law allows limited companies to form projects where the state contributes less than 25% of the capital shares.

Available Investment Opportunities at Ministry of Industry and Minerals announced as Investment Opportunities which includes (New Projects and Rehabilitation Projects)

Investment is based on partnership contracts with private sector according to Article 15/third, State Companies law no. 22 in 1997 amended, contracts can enjoy privileges in investment law no 13 amended Article 33/B.

Below, you can find the table of Available Investment Opportunities at Ministry of Industry and Minerals that are distributed in terms of the type of the project, form of investment and the Province the project is located in bases on management and production partnership, increasing the production capacity regarding rehabilitation projects and FDI fro new projects.

No	Project	State Company	Investment type	Required investment	Location
1.	Al-Ameen Factory for oils and detergents	State Company for Food Industries	Rehabilitation and Development	\$12 m.	Baghdad

8- Tourism Sector:

Iraq's cultural, religious and natural environment is regarded as an attracting factor for investors and visitors since it is a country of ancient civilization, international archeological sites and sacred religious sites in addition to the outstanding natural sites in the northern parts of Iraq.

There is a plan prepared by the government to develop and expand transport infrastructure to serve the largest number of tourists.

Tourism is regarded as an important factor of the economic and social development factors in the various countries and it represents a main resource of the national income resources which provide job opportunities through its different projects and activities, accordingly;

the government has been serious to lay down plans to invest the country's cultural and tourism components. The big changes that Iraq witnessed in all its economic and social sides have motivated the state to adopt active policies and programs to draw the development advancement features, the diversification and social mergers basement with putting investment plans for the coming years aiming at laying the foundations for an investment environment to improve the economic and cultural status supporting the Iraqi economic pillars and reinforcing the social security.

Ministry of Tourism and Archeology is considered as the Iraqi governmental side responsible for developing and sustaining the tourists sites in Iraq through developing required infrastructure and maintaining its genuineness and impact whereas this includes rehabilitating, maintaining and reviving specified sites, contracting with archeological establishments and holding official teaching and training programs.

There are lots of opportunities to invest and rehabilitate tourists' sites all over the country.

According to MoT letter 8839 in 15/2/2016

10. Education Sector

Sustainable development concept is always at the forefront of the international community interests, and since people has always occupied the first priority among the sustainable development factors, international world gave more importance to paying strong attention to develop the mental abilities and learning opportunities for human beings making education a human right for each individual in the society guaranteed by all international laws. The education standards in any country are seen as a measure for its advancement and development. In Iraq; laws guarantee the opportunity of obtaining good education for all Iraqis.

Education is still one of the greatest concerns of countries and despite the big progress in the primary education and the increase in the numbers of pupils joining schools and anti- illiteracy movements, big efforts are still being made increasingly to improve education quality by the government and it is still a big challenge for the developing countries including Iraq to keep pace with the intellectual advancement and skill development starting from kindergartens to high school levels.

Iraq is one of the most important countries that gave special attention to education system since the mid twentieth century, as it owns many reliable universities which are listed among the best ones in the Arab region. Iraqi universities were established in the beginning of the second half of the twentieth century starting with Baghdad University in 1957, Mustansyriah University 1963, whereas other universities were established after 1980 like University of Technology, Basra University, Mosul University, Sulaimanyah University in addition to a number of technical institutes. Iraq is in need for many educational institutions to meet the increasing demand as a result of population growth, the reality that provides investors with great opportunities to invest in this sector.

Education Indicators

1- Kindergartens

There are (1041) kindergartens in Iraq for the school year 2013-2014 while they were (967) in 2012-2013. Number of children attending the mentioned kindergartens is (202525) for the year 2013-2014 against (125391) for the year 2009-2010. Number of kindergartens teachers has reached (7971) in 2012-2013-2014. The following table shows indicators

A table shows the development in kindergartens during 2009-2014

School year	No. of Kindergartens	No. of Children	No. of Teachers
2009- 2010	631	125391	5353
2010- 2011	648	141158	5475
2012-2013	967	193358	7559
2013-2014	1041	202525	7971

2- Primary Education

Through analyzing the most recent data for the year 2013-2014 announced by the central organization for statistics and information technology regarding the educational surveys we can find the following:

- Number of (morning and evening) primary schools in Iraq is (15807) for the school year 2013-2014, (26.4%) are for boys and (22.4%) for girls while (51.2%) are mixed schools.
- Number of the available pupils in (morning and evening) primary schools is (5558674) for the school year 2013-2014 where the girls' rate is (46%) and boys is (54%). Number of male and female teachers is about 287502.

3- Secondary Education

Number of (morning and evening) secondary schools in Iraq is (7083) for the school year 2013-2014,

Number of students of the secondary education schools are estimated by (2528133) for the school year 2013-2014. number of teachers is about 160323.

4- Vocational Education

Despite the significance of this educational branch, feeble attention has been forwarded to it comparing with other countries. The vocational schools in Iraq are divided into 4 sections, agricultural, industrial, commercial and fine arts and the number of these schools in Iraq is (597) for the school year 2012-2013, (67%) of which are industrial, (29%) commercial, (2%) agricultural and (2%) are for fine arts.

5- University Education (governmental, private and technical)

Surveys results have shown that the number of students admitted to Iraqi universities, private colleges and technical educational institutions reached (554,587) students for the year 2012-2013 while their number for the year 2010-2011 was (476,377) students

11. Services Sector

Services provision is considered as one of the main factors for a successful investment environment, so GOI has been serious to pay much attention to provide best services as it plays an essential role to achieve productivity and social stability.

The Government of Iraq has always sought to ensure the provision of good services and infrastructure and to display investment opportunities to the private sector with circulating a number of successful policies and programs in this regard.

After the restriction to regional traditional markets, Iraq markets have witnessed a big expansion with a shift in consumption, purchasing and entertainment patterns due to opening investment doors in this vital sector and the orientation towards constructing new commercial centers the matter that led to the large increase in the number of the commercial malls in the last three years with more new ones that are still under construction. Services sector participation in GDP is around 11% in fixed prices 2015.

Available Investment Opportunities in Services Sector

First: State Company for Food Trade

No.	Suggested Project	Land no.	Area	Location	Notes

11. Youth and Sport Sector:

Youth and Sport Sector provides essential services for a successful investment environment, therefore; the government keeps to secure this sector to provide services and care for youth since this sector has a great importance in increasing productivity and achieving stability and welfare for youth.

The government has sought to provide services and infrastructure in addition to providing investment opportunities for private sector to participate in developing this vital sector. The government has launched several policies and successful programs as Iraq's youth witnessed an intellectual expansion and a real desire to develop sport.

Different investment areas have been launched in this sector especially with the trend toward establishing new youth centers and forums which increased the number of these centers significantly over the last three years noting that there are several projects that are under implementation in this sector.

12. Agriculture sector

Previously, the agricultural sector achieved remarkable ratios to GDP due to availability of the basic factors to a successful agriculture where fertile plains, water of the Tigris and Euphrates rivers and wide lands, whether depending on irrigation or rain, as well as having good amounts of water sources with the availability of other human and material resources, so Iraq was considered a food basket for the Middle East and exporter of various agricultural products, but this sector deteriorated in the fourth quarter of the last century because of neglect, poor management of water resources and a growing population, and in spite of these challenges, the sector continues to play an important role in the Iraqi economy to its potential in employment which contribution to the GDP has reached at constant prices for 2015 up to (3%), while there are approximately (6,764,661) dunam declared by the Ministry of Agriculture, all of these ready to be invested. This sector is a promising one in terms of the multiplicity and diversity of investment opportunities and in the presence of the success elements of the work in this sector so as to ensure the diversity of the food basket and providing food security through agricultural relative investments of all kinds.

Investment opportunities in Agriculture sector announced by the Ministry of Agriculture

Areas for agriculture investment in Iraqi provinces except Kurdistan Region 2016
